CONTENTS OF VOLUME THIRTY-FIVE

NUMBER 1. *Influenza*

Scientific Editor: G C SCHILD

		PAGE
Introduction	*C H Stuart-Harris*	1
Epidemiology of influenza in man	*C H Stuart-Harris*	3
Global surveillance of influenza	*M S Pereira*	9
The epidemiology of influenza in a tropical (Gambian) environment	*I A McGregor, G C Schild, W Z Billewicz & K Williams*	15
The mathematical modelling of influenza epidemics	*C C Spicer*	23
Ecology of influenza viruses in lower mammals and birds	*W G Laver & R G Webster*	29
Electron microscopy of influenza virus	*N G Wrigley*	35
The influenza virus genome and its replication	*R D Barry & B W J Mahy*	39
Influenza virus transcription	*A J Hay & J J Skehel*	47
Primary structure of the Hong Kong (H3) haemagglutinin	*C W Ward & T A Dopheide*	51
Structure of the haemagglutinin of influenza virus	*M D Waterfield, K Espelie, K Elder & J J Skehel*	57
Immune responses to influenza virus in the mouse, and their role in control of the infection	*J L Virelizier, A C Allison & G C Schild*	65
Determinants of immunity to influenza infection in man	*C W Potter & J S Oxford*	69
Vaccination against influenza A	*D A J Tyrrell & J W G Smith*	77
Inhibitors of influenza virus replication	*G C Schild & J S Oxford*	87
Notes on Contributors		92
Book Reviews		97

NUMBER 2. *Reproduction*

Scientific Editor: R V SHORT

		PAGE
Introduction	*R V Short*	97
Regulation of meiosis in mammalian oocytes	*R M Moor & G M Warnes*	99
In-vitro fertilization, embryo transfer and storage	*D G Whittingham*	105
Control of early development	*E D Adamson & R L Gardner*	113
Sex determination and differentiation	*R V Short*	121
Role of embryonic signals in the establishment of pregnancy	*R B Heap, A P Flint & J E Gadsby*	129
Growth of the fetus	*J S Robinson*	137
Initiation of parturition	*G C Liggins*	145
Effects of lactation on fertility	*Alan S McNeilly*	151
Neuroendocrine control of gonadotrophin secretion	*G Fink*	155
Gonadotrophic regulation of ovarian activity	*K M Henderson*	161
Pituitary control of testicular activity	*G A Lincoln*	167
Prostaglandins in the control of animal and human reproduction	*S M M Karim & Keith Hillier*	173
The chromosomal basis of human infertility	*Ann C Chandley*	181
Endocrinology of male infertility	*D M de Kretser*	187
Endocrinology of female infertility	*David T Baird*	193
Contraceptive research and development	*R J Aitken*	199
Notes on Contributors		205
Book Reviews		207

NUMBER 3. *Smooth Muscle*

Scientific Editors: EDITH BÜLBRING & T B BOLTON

		PAGE
Introduction	*Edith Bülbring & T B Bolton*	209
Smooth muscle cell junctions and structural aspects of contraction	*Giorgio Gabella*	213
Mechanisms of contraction and the specialized protein components of smooth muscle	*S Victor Perry & Roger J A Grand*	219
Maintenance of ionic composition	*A F Brading*	227
Membrane properties	*M E Holman & T O Neild*	235
Functional diversity of smooth muscle	*K E Creed*	243
Blood-vessels	*W R Keatinge*	249
Autonomic innervation and transmission	*G Burnstock*	255
Mechanisms of peristalsis	*G D S Hirst*	263
Drug receptors	*A S V Burgen*	269
Cholinergic mechanisms in smooth muscle	*T B Bolton*	275
Postjunctional adrenergic mechanisms	*Edith Bülbring*	285
Prostaglandins and smooth muscle	*E W Horton*	295
Links between basic and clinical studies of gastrointestinal smooth muscle	*H L Duthie*	301
Vascular smooth muscle: correlations between basic properties and responses of human blood-vessels	*B F Robinson & J G Collier*	305

Notes on Contributors 313

Book Reviews 315

INDEX TO VOLUME THIRTY-FIVE

Names printed in capitals are those of authors who have contributed papers. Titles of books are printed in italics.

A

Abortion, and chromosomal abnormality, 185
Acetylcholine, action on smooth muscle, 275
—binding to receptors, 276
—effects on electrical activity of smooth muscle, 277
Actin, 219
α-Actinin, 222
Actinomycin D inhibition of influenza virus, 90
Action potentials in smooth muscle, 238
ADAMSON E D & GARDNER R L: Control of early development, 113
Adrenaline, α action, 286, 287, 288, 289
—β action, 287, 290
Adrenergic mechanisms, postjunctional, 285
—neuromuscular transmission, 257
Adrenoceptors, neuronal, 285
—on muscle cells, 285
Agonists and antagonists, 271
Aidley D J: *The physiology of excitable cells*, 2nd ed., 315
AITKEN R J: Contraceptive research and development, 199
ALLISON A C, *see* VIRELIZIER J L, 65
α-Amanitin inhibition of influenza virus, 90
Amantadine inhibition of influenza virus, 88
Amenorrhoea, lactational, 152, 154
Amines, inhibition of influenza virus by, 88
Andrewes C, Pereira H G & Wildy P: *Viruses of vertebrates*, 4th ed., 95
Arterial spasm, effect on vascular smooth muscle, 311
Arteries, muscle, nerve supply, 249
—responses to injury, 252

B

BAIRD D T: Endocrinology of female infertility, 193
BARRY R D & MAHY B W J: The influenza virus genome and its replication, 39
—*see* Mahy B W J, 95
BILLEWICZ W Z, *see* McGREGOR I A, 15
Bioassay: *Statistical method in biological assay*, 3rd ed., 316
Biographical notes on contributors, 92, 205, 313
Blood-vessels, muscles, 249
—response to humoral agents and drugs, 305
——to injury, 252
——to oxygen tension changes, 310
—tone and response to stretch, 309
BOLTON T B: Cholinergic mechanisms in smooth muscle, 275
—*see* BÜLBRING E, 209
Book reviews, 95, 207, 315
BRADING A F: Maintenance of ionic composition, 227
Brain: *Cerebral vascular smooth muscle and its control*, 315
BÜLBRING E: Postjunctional adrenergic mechanisms, 285
—& BOLTON T B: Smooth muscle. Introduction to symposium, 209
BURGEN A S V: Drug receptors, 269
BURNSTOCK G: Autonomic innervation and transmission, 255

C

Calcium, cellular distribution, 285
—regulation in smooth muscle, 231

Calmodulin, 224
Camptothecin inhibition of influenza virus, 90
Cardiovascular system, autonomic innervation, evolution, 259
Caveolae of smooth muscle cells, 214, 215
Cell, differentiation in early development, 113
—*Physiology of excitable cells*, 2nd ed., 315
—type, molecular characterization in mammalian development, 117
Cephalometry, fetal, 139
CHANDLEY A C: The chromosomal basis of human infertility, 181
Chloride regulation in smooth muscle, 232
Cholinergic mechanisms in smooth muscle, 275
—neuromuscular transmission, 256
Chromosome abnormalities and infertility, 181
Ciba Foundation: *Cerebral vascular smooth muscle and its control*, 315
—*Maternal recognition of pregnancy*, 208
Cohen J & Hendry W F (editors): *Spermatozoa, antibodies and infertility*, 208
COLLIER J G, *see* ROBINSON B F, 305
Contraception, male pill, 201
Contraceptive research and development, 199
Contraction, isotonic, 217
Contributors, biographical notes on, 92, 205, 313
Corpus luteum, embryonic control of function, 129
——function, gonadotrophic regulation, 164
——prostaglandin control, 175
CREED K E: Functional diversity of smooth muscle, 243
Crighton D B, Foxcroft G R, Haynes N B & Lamming G E (editors): *Control of ovulation*, 207
Cyproterone acetate as male contraceptive, 201

D

de KRETSER D M: Endocrinology of male infertility, 187
DOPHEIDE T A, *see* WARD C W, 51
Drug receptors, 269
Drugs, action on blood-vessels, 305, 306
DUTHIE H L: Links between basic and clinical studies of gastrointestinal smooth muscle, 301
—(editor): *Gastrointestinal motility in health and disease*, 315

E

Egg, preparation for in-vitro fertilization, 107
ELDER K, *see* WATERFIELD M D, 57
Embryo, control of early development, 113
—early death, 134
—interaction with uterus, 131
—storage, 109
—transfer after in-vitro fertilization, 108
——and storage after in-vitro fertilization, 105
Enzymes involved in influenza virion RNA synthesis, 44
ESPELIE K, *see* WATERFIELD M D, 57

F

Fallopian tube, motility, prostaglandin control, 176
Fertility, effects of lactation on, 151
Fertilization in vitro, 105
——human, 107
Fetus, anomalies, detection, 140
—anthropometry, 137
—growth, 137
——retardation, 141
——ultrasonic measurement, 138
—*Immunology and immunopathology of the human foetal–maternal interaction*, 207
—weight, estimation, 139
Filamin in smooth muscle, 222
FINK G: Neuroendocrine control of gonadotrophin secretion, 155
Finney D J: *Statistical method in biological assay*, 3rd ed., 316
FLINT A P, *see* HEAP R B, 129
Follicle growth, gonadotrophin regulation, 161
—rupture, role of prostaglandins, 174
Follicle-stimulating hormone, role in regulation of testicular activity, 167
Foxcroft G R, *see* Crighton D B, 207
Fry J: *A new approach to medicine: principles and priorities in health care*, 96

G

GABELLA G: Smooth muscle cell junctions and structural aspects of contraction, 213
GADSBY J E, *see* HEAP R B, 129
GARDNER R L, *see* ADAMSON E D, 113
Gastrointestinal motility, control, role of extrinsic innervation, 267
——*Gastrointestinal motility in health and disease*, 315
Genome, embryonic, activation, 115
—maternal, in early development, 114
Gonadotrophin failure in female infertility, 194
—human chorionic, and immunological suppression of fertility, 199, 200
Gonadotrophin-releasing hormone, clinical applications, 158
Gonadotrophins, neuroendocrine control, 155
—regulation of ovarian activity, 161
—secretion during lactation, 152
Gonadotrophs, 155, 167, 170
GRAND R J A, *see* PERRY S V, 219
Granulosa-cell maturation, gonadotrophic regulation, 162

H

H-Y antigen, sex-determining role, 122
Haemagglutinin, Hong Kong, structure, 51
—influenza virus, isolation, 57
————precursors, 62
————structure, 51, 57
HAY A J & SKEHEL J J: Influenza virus transcription, 47
Haynes N B, *see* Crighton D B, 207
Health care: *A new approach to medicine: principles and priorities in health care*, 96
HEAP R B, FLINT A P & GADSBY J E: Role of embryonic signals in the establishment of pregnancy, 129
HENDERSON K M: Gonadotrophic regulation of ovarian activity, 161
Hendry W F, *see* Cohen J, 208
HILLIER K, *see* KARIM S M M, 173
HIRST G D S: Mechanisms of peristalsis, 263
HOLMAN M E & NEILD T O: Membrane properties, 235
Hong Kong haemagglutinin, structure, 51
Hormones, influence on muscle properties, 246
HORTON E W: Prostaglandins and smooth muscle, 295
Hyperprolactinaemia, 194
—pathological, 153
Hypertension, effect on vascular smooth muscle, 310
Hypothalamo-hypophysial unit, relationship with testis, 187

I

Immunology and immunopathology of the human foetal–maternal interaction, 207
Infertility, female, anovulatory, 193
——diagnostic tests, 193
——endocrinology, 193
—human, chromosomal basis, 181
—male, endocrinology, 187
—*Spermatozoa, antibodies and infertility*, 208
Influenza, 1–96
—antibody prevalence rate in Gambia, 16
—epidemics, mathematical modelling, 23
—epidemiological surveillance, 11
—epidemiology, global surveillance, 9
——in man, 3
——in tropical environment, 15
——prediction of future outbreaks, 6
——serological, 5
—excess mortality from, 4
—haemagglutinin, antibody, 72
—immunization: *International symposium on influenza immunization*, 95
—incidence, relation to non-immunological factors, 6
—infection, host immune reactions, 71
——immunity, determinants in man, 69
—introduction to symposium, 1
—morbidity, 11
——and mortality indices, 3
—mortality, 12
—vaccination, 77
——side-effects, 82
—vaccine, evaluation, 79
——inactivated, 77
——killed, composition, 79
——live, 78
————evaluation, 80

———genetic analysis, 78
——protective effect, 81
—virion, electron microscopic appearance, 35
——RNA synthesis, 43
—virological surveillance, 12
— virus, antigenic variation, 9
———relation to community prevalence, 5
——ecology in lower mammals and birds, 29
——electron microscopy, 35
——genetic studies, 39
——genome, 39
———replication, 39
——haemagglutinin, Hong Kong, structure, 51
———isolation, 57
———precursors, 62
———structure, 51, 57
——"historic" subtypes, recent reappearance, 13
——immune response in mouse, 65
——replication, inhibitors, 87
——RNA, structure, 40
——transcription, 47
——virulence, 69
—WHO programme, 10, 11
Inhibin, and spermatogenesis suppression, 201
Intestines, motility, control, role of extrinsic innervation, 267
—neurones, properties, 263
——synaptic activity, 265
—smooth muscle, junction potentials recorded, 265
———layers, innervation, 264
Ions, maintenance of composition in smooth muscle, 227
—sodium-linked movements, 229
